## INTRO

---

One of the first societies living in the metaverse, located on the Solana Blockchain, is now opening its gates to new initiates. 6666 drawn by hand, algorithmically generated NFTs allowing access in The Solluminati Order. Inspired by the well-known but never seen Illuminati, our mission is to watch, protect and grow the entire Solana Metaverse.

**Our vision** is to build The Solluminati Community around shared principles and values:

- our community members grow with us
- shared benefits
- community driven development

We are here for the long run. A bunch of tech-oriented and passionate human beings, strong believers in a decentralized world, where its citizens share the fruitful benefits.

### **The All Seeing Eye is watching.**

When minting your NFT you are becoming a member of The Solluminati Order. This roadmap outlines the goals and what we want to achieve alongside The Solluminati Community.

## WHAT WE DO

---

The Solluminati project is a community-centric NFT project built on the Solana blockchain. The 6666 drawn by hand, algorithmically generated NFTs are allowing the holders access in The Solluminati Order. Our art, as the name says, is inspired by the Illuminati. The All seeing Eye is present everywhere; yes, literally, everywhere and it will be watching everything.

As we believe it's all about communities, our mission is to bring together a community of NFT collectors and builders in the Solana ecosystem and give them access to a very powerful tool suite addressed to the Solana NFT ecosystem. We have been around (observing) the Solana NFT ecosystem since its beginning and we have participated in most of the initial sales, analyzing and discovering all the possible improvements and all the lacking tools.

Our tool suite was developed to help any Solana NFT enthusiast to gain market control and maximize their profits.

As expected from an Illuminati order, we are a fairly big team - 15 members. From experienced developers to marketing geeks, creatives, product and data people, and obviously, illustrators and artists. All the experience is combined in a team looking to create products to not only change the life of all Solluminati Order members, but also to the entire Solana ecosystem.

No one is left behind. We shall seek enlightenment together.

To reach the state of enlightenment, you must walk one of the 3 paths:

- ***Lux per corpus*** (light through body)  
Total domination through control of the people. Faction Skull & Bones
- ***Lux per mentem*** (light through mind)  
Total domination through control of the financial world. Faction Golden Circle
- ***Lux per spiritum*** (light through spirit)  
Total domination through control over the human spirit. Faction House of Degen

To reach the State of Solluminati, you must be enlightened through body, mind and spirit combined.

**Do you have what it takes to join us?**

## FACTIONS

---

The Factions need to recruit members and spread the Lore. The Solluminati decided that it is time to bring the light in the Solana metaverse, expanding its control in all corners of the ecosystem. The duty of every faction member stays in line with the path to enlightenment that they resonate the most.

### SKULL AND BONES

The Source casts its energy in giving its members the power to control and dominate, influencing and shifting the world in their interest and wellbeing. Their path to enlightenment is *Lux per corpus* (**light through body**).

The members of this faction should spread the control of the order, bringing valuable apprentices and insights to the Solluminati order.

### GOLDEN CIRCLE

The Eye watches over its members giving them control of the financial world allowing them to control the markets. Their path to enlightenment is *Lux per mentem* (**light through mind**).

The members should watch the market and price of other projects and find opportunities for wealth.

### HOUSE OF DEGEN

The Light shines on this faction. Its members have an acute interest in influencing the faith and exploring the beliefs of others. Their path to enlightenment is *Lux per spiritum* (**light through spirit**).

The members should study the Solana metaverse for other projects, find cool partnerships, trends, and what the markets want.

## PRODUCT - THE EYE ECOSYSTEM

We develop an ecosystem of tools and services for our community to be able to monitor, analyze and make decisions on the Solana blockchain.

In order to have access to the ecosystem (Solluminati tools suite) you need to own at least one NFT from our Collection.

We know that there are a bunch of tools out there, but making it all work together in order to serve you is a whole different story. And we're here for the long run to make it happen.

## PRODUCT - MODULES

---

### **The Radar - Monitoring the Solana ecosystem**

Social Data Tracker is a social media tracking tool that delivers analytics and competitive intelligence to help the Solluminati community make informed decisions, improve results, and better understand the evolution of every NFT project on the Solana blockchain.

This tool obtains data from multiple online sources delivering it in a beautiful and easy to understand format. To name a few, you will see the evolution of a Twitter account to determine whether the growth was organic and sustainable or artificial (through fake followers). You will be able to detect very early stage projects with huge growth potential and much more.

Social Scoring is an AI powered rating system that harnesses the analytics from Social Data Tracker in order for the community members to choose faster in which projects to invest. The scoring mechanism is based primarily on socially gained traction (tags, how much people are discussing about a specific topic, likes, shares, etc).

### **The Compass - Analyzing the Solana ecosystem**

It is all about real time data or it doesn't exist. We commit to delivering a platform with 100% real-time data, insights and analytics.

Search through latest floor prices, volume, sale history, price volumes on NFT's.

Ranking categories based on mints, markets, traits and much more makes it very easy to navigate the platform.

### **The Navigator - Take action in the Solana ecosystem**

Make informed decisions by harnessing the power of data and real-time social insights.

With the Navigator you will be able to discover the latest minted project, watch transaction history and portfolio value of any wallet, and receive alerts on wallets that you want to follow.

Watch the market dynamic with The Navigator and spot when a new NFT project has launched and determine if the project is set on a path to success.

# ROADMAP

## Chapter 1 - The watch

We are one of you. We have been watching Solana NFT Metaverse for a while already. We know all the projects, we watch all the movements. The All-Seeing Eye was opened and it gathered information.

## Chapter 2 - The enrollment

The release of the 6666 membership passes as Solluminati NFTs in the Solana Metaverse combined with pledging our values to our members. The initiation begins.

November 2021  
- Website launch  
- Project launch in November, 6666 NFTs providing access to the All-Seeing Eye  
- Marketplace listing  
- "Roadmap 6.6" deployment - an extended list of features that will be chosen by the community and developed by us.

August & September 2021  
- Team setup  
- Starting the research and development of The Eye  
- Project whitepaper  
- Radar beta testing  
- Navigator(without GUI) in action  
- Art begins

October 2021  
- Radar production testing  
- Compass beta dev  
- Art finishing  
- Radar Launching

## Chapter 3 - The enlightenment

The apprentices become members. The All-Seeing Eye will be available for each of them. The Solluminati Order will transform into a DAO, where holders become voting members and will decide how the future will be shaped and will enjoy its benefits altogether.

## Chapter 4 - The control

Endless possibilities will appear for the pass holders. The voice of every member will be heard and will contribute directly to the development of the project.

Q1 - Q2 2022  
- Full phase 2 and phase 3 of The Eye will be ready plus some of the community requested features and apps

December 2021  
- DAO transformation  
- Phase 1 in Radar, Compass and Navigator deployed and working  
- Product adaptation by community request  
- Giveaways, floor swiping, airdrops and Sniping Bot profit lottery

## Chapter 5 - Mission Dominate

The Solluminati Order objective is to fill a missing piece in the Solana Ecosystem by enabling its community to dominate.

Our community-driven product will be by then ready, functioning and will create numerous opportunities for all the DAO holders. More details are to be shared in roadmap 6.6.

## TEAM

---

A team of friends, assembled under the name Enigma Labs, came together to give a helping hand to all NFT lovers from the Solana NFT ecosystem. Passion and determination define us.

### **Losgitanos - Initiator & Leader**

Losgitanos is the man in charge of coordinating all facets of the project. He has taken the task of analyzing the entire Solana metaverse, from studying the projects to building The Eye. His job is to make sure that nothing goes wrong, and keep everyone united.

### **Bogdan - Brainwasher**

Bogdan is the brainwasher of Solluminati. He spends his time advising on best connecting with their target audience and getting them excited about products that will change their lives. Bogdan has an eye for detail, which he puts into all of the social media posts, videos, and blog posts created by the Solluminati staff.

### **Pyx - Forger of The Eye**

Pyx is a genius in data scraping and analysis. He is good with numbers, seeker of Truth and lives by "*Veritas in Numeris*". Little is known about his origins.

### **Kratos - Solana Chieftain**

Kratos is the software & blockchain Solluminati Chieftain who is able to take care of any technical aspect with incredible speed and power. Kratos loves barbecues and going to the gym, but he hates vegetables because they're too crunchy!

### **Cesien - Solana Forger**

Cesien codes for the real Illuminati. He has done things you wouldn't believe, like how his code once killed a king in front of thousands of people. He is an expert in many fields, and will make sure that Solluminati takes over the Solana Metaverse!

### **Demiera - Front-end Wizard**

Demiera is an introverted front end developer. She prefers to work alone and detests being around people. Demiera lives in a world of her own creation, where she controls everything that happens.

### **SOL Reaper - Social & Community Pastor**

Sol Reaper's social and community skills are a force to be reckoned with, but he prefers to work in the shadows. He spends his days managing our social media channels and building communities for us on Discord, so that we can all come together under one banner. It's not always easy keeping up with all of us!

### **Sollucifer - Solluminati Lore Forger**

Sollucifer is a master scribe. His favourite authors are Tolkien, Hemingway and Tolstoy. He likes to read books about the great outdoors, as well as military history. Lucifer has been known to spend well over 30 hours reading a single book in one sitting!

### **EnlightenedOne - Concept & Vision Creator**

The Enlightened One is the one who guides many sides of the Solluminati society, from conceptualizing the art and rarity elements, to assisting with the creation of the stories and strategies in all aspects of the project. This guy can manipulate you into doing all the wrong things in the world.

### **UrbanQr - Art Manager**

UrbanQr is a mysterious person. Nobody really knows what he does, and nobody's ever seen him in person. UrbanQr has been lurking around the art community for years now, and we're still none the wiser about his true identity.

### **Stelantes - Project Manager**

Stelantes is the project manager for Solluminati. He oversees all aspects of the organization's operations, from assigning missions to completing them. Stelantes has an eye for detail and can see potential problems before they happen.

### **Prophet - Storyteller**

The Prophet is the storyteller for Solluminati. She has been with them since he was born and her job is to keep their secrets safe. Her favorite thing in this world is reading books about conspiracies, because they help her understand what's going on with the world at large, and how it impacts what she does every day.

Obviously, we have a team of creative artists among us. The disclosure of the creative team, along with the praising, will happen later. All who pass the initiation, will get to know the team behind Solluminati.
